HIP PAIN

Recover your quality of life
without drugs, side effects or surgery.
Physical therapy is the clear choice!

Choose Complete Care Physiotherapy Centre to relieve

HIP PAIN

Recover your quality of life

www.physiocompleterecare.ca

Physical therapists (PTs) are experts in the art and science of the evaluation and treatment of human movement dysfunctions. We care for people of all ages and treat a variety of muscle, joint and neurological conditions.

Conditions we have successfully treated:

- Hip pain
- Groin strain
- Arthritis*
- Trochanteric bursitis
- Tendonitis
- Post surgical hip replacement

What are my treatment options?

- Drugs
- Epidural Injections
- Surgery
- **Physical Therapy***

Advantages of Physical Therapy:

- No side effects
- Cost-effective
- Supported by clinical research*
- Customized to treat the underlying cause

If you're ready for relief,
and tired of "masking" your pain,
treat the cause, not just the symptoms!

Your Recovery Process:

- Pain relief
- Recovery of any lost hip range of motion
- Increased strength
- Recovery of walking and functional skills
- Independent care

Components of Your Care:

- A thorough biomechanical evaluation
- Extensive patient education
- A customized treatment plan
- Gentle hands-on techniques to relax the muscles
- Effective joint mobilization techniques to decrease stiffness
- Pain-relieving modalities such as ice, heat, ultrasound or electrical stimulation
- Targeted stretching for tight muscles
- Walking, stair climbing, sit-to-stand retraining
- Balance exercises

Everyone is different. You may require one or two visits, or an extended care plan over several weeks or months.

Make an appointment today.

Start feeling better tomorrow.
